

ADITUS – Reader: Digitale Tools und Datenbanken für die Altertumswissenschaften

Der vorliegende Reader ist im Rahmen des ADITUS-Projekts ADITUS (Altertumswissenschaftliche Digitale Tutorientools für Studierende) unter der Leitung von Prof. Dr. Nicola Hömke und Dr. Simone Finkmann am Heinrich Schliemann-Institut für Altertumswissenschaften erarbeitet worden und soll Studierenden einen schnellen Überblick über hilfreiche digitale Tools und Datenbanken für die Altertumskunde geben und den Einstieg in die Nutzung erleichtern. Es handelt sich um eine kleine Auswahl der verfügbaren digitalen Tools, die keinen Anspruch auf Vollständigkeit erhebt und kontinuierlich erweitert werden soll. Für Tools und Methoden zur digitalen Textanalyse wurde bewusst auf eine Darstellung der Programme verzichtet, die bereits ausführlich von der [forTEXT-Projektgruppe](#) beschrieben wurden.

digilibLT

Vollständiger Titel	The Digital Library of Late-Antique Latin Texts
Kurztitel	DigilibLT
Kategorie	Digitale Sammlung spätantiker lateinischer Text
URL	https://digiliblt.uniupo.it/index.php
Verfügbarkeit	Für das Herunterladen der Texte ist ein kostenfreier Account notwendig; der Lesezugang ist frei zugänglich ohne Anmeldung
Inhalt und Umfang	lateinische Texte vom 2. bis zum 8. Jh. n. Chr. (entwickelt als Fortführung der PHI database (Packard Humanities Institute))
Sprache	Englisch und Italienisch
Nutzungshinweise	DigilibLT ist übersichtlich und leicht zu operieren. Die Ladevorgänge sind jedoch nicht vollständig optimiert, sodass größere Suchanfragen mitunter viel Zeit in Anspruch nehmen können.

Nutzungsanleitung

Schritt 1:

Rufen Sie zunächst die Hauptseite auf und nutzen Sie eine der folgenden Such- und Browse-Optionen: Nach Werk, nach Autor, nach Bibliographie, nach Datum, nach dem Namen der Autor*innen.

The screenshot shows the homepage of the Digital Library of Late-Antique Latin Texts (DigilibLT). The header includes the logo and name of the library, along with logos for the University of Piemonte Orientale (UPO), the Fondazione Cassa di Risparmio di Vercelli, and the Regione Piemonte. The main navigation bar contains links for Home, The project, News, Late antiquity on the web, Help, Contacts and feedback, and Reserved area. The search bar is prominently displayed, with a 'FIND' button. Below the search bar, there are options for 'Searchable works', 'Advanced search', and 'Search the bibliography'. A map of Northern Italy highlights the regions of Novara, Vercelli, and Alessandria. The main content area is titled 'Digital library of late-antique latin texts' and contains a detailed description of the project, its goals, and its history. The page also includes a navigation menu at the top and a footer with contact information.

Die reguläre Suche funktioniert wie gewohnt: Geben Sie einfach einen Namen von dem gesuchten Werk oder den Autor*innen ein und klicken Sie auf die „Find“ oder drücken Sie Ihre „Enter“-Taste. Für dieses Programm sollten Sie die lateinischen Namen verwenden: Deutsche oder englische Kurzformen wie „Pliny“ oder „Isidor“ erzielen nicht die gewünschten Suchergebnisse.

Schritt 2:

Suchen Sie aus der Liste der Suchergebnisse das gewünschte Werk aus. Die Treffer werden automatisch nach den häufigsten Erwähnungen geordnet.

The screenshot shows the digilibLT search interface. The search key is 'isidorus', resulting in 10 occurrences in 9 texts. The results are sorted by 'n. occ.' (number of occurrences). A dropdown menu is open next to 'Sorted by: n. occ.', showing options for 'Text type' (Scholia, Historiography, Epistolography) and 'Date' (Uncertain date, Saec. II, III, V, VI, VII). The search results list includes:

- 1. Author: Philargyrius/Philagrius, Title: Scholia in Verg. Ed. et Georg. Bernensia, Text type: Scholia, Period: saec. V, Matches: 4 [Show]
- 2. Author: Martianus Capella, Title: De nuptiis Philologiae et Mercurii, Period: saec. V, Matches: 2 [Show]
- 3. Author: Isidorus, Title: Dedicatio historianum Gothorum, Vandalorum, Sueborum ad Sisenandum regem, Text type: Epistolography, Period: saec. VI-VII, Matches: 1 [Show]
- 4. Author: Isidorus, Title: Differentiae, Period: saec. VI-VII, Matches: 1 [Show]

Klicken Sie auf das Dropdown-Menü neben „Sorted by“, wählen Sie das von Ihnen bevorzugte Suchkriterium aus und klicken Sie auf „Go!“, um die Ergebnisliste neu sortieren zu lassen: Beispiel - Isidorus

This screenshot is similar to the first one, but the 'Text type' dropdown menu is open, showing the following options:

- Scholia (3)
- Historiography (3)
- Epistolography (1)

The search results list remains the same as in the first screenshot.

Alternativ können Sie die Suchergebnisse auf einen bevorzugten Texttyp oder das gewünschte Veröffentlichungsdatum beschränken.

Schritt 3:

Eine alternative Suchoption ist die Suche nach Autor*innen und Werken gemäß ihres Erscheinungsdatums. Wählen Sie dazu unter „Browse and download“ „Works“ oder „Authors“. Alternativ können Sie Ihre Suche zeitlich einschränken bzw. erweitern: Dazu stehen Ihnen die Funktionen „Uncertain date“ für Texte, deren Veröffentlichungsdatum ungewiss ist, die Auswahl aus einem Jahrhundert der Spätantike und die Option „All the authors/works“ für eine Liste sämtlicher Autor*innen und Werke, die in digilibLT hinterlegt sind, zur Verfügung.

Digital library of late-antique latin texts

The Digital Library of Late-Antique Latin Texts—DigilibLT—publishes secular prose texts written in Latin in late antiquity (from the second to the seventh century AD). The texts are annotated according to the XML-TEI standards and are offered free of charge to the public for reading and research.

Since its creation in 2010, DigilibLT has achieved significant goals: near 400 texts have already been uploaded, a number that is constantly increasing. In addition, in recent years DigilibLT has added two significant extensions to the canon of authors and works initially designed for inclusion. The first concerns the grammatical works, uploaded to the site based on the best and most recent critical editions. Since 2019, DigilibLT has started another expansion line, this time regarding late Roman law. The first step has been the completion of a Canon of Roman Law, now available on the website alongside the other canon. Uploading of texts has recently started and actually it is in full swing.

The implementation of the library continues in compliance with the principles stated from the beginning: clarity in the indication of the editions adopted and any editorial interventions that may have been made; enrichment of the works with short entries on late-antique authors and works; bibliographical references. The query templates and the search options remain unchanged.

Libraries, digital or physical, couldn't exist without readers. For more than ten years, we have enjoyed the encouragement of a wide international readership made up of scholars, students and members of the general public. Moreover, after the initial funding from the Piedmont Region, in recent years DigilibLT has also benefited from the support of the Foundation Cassa di Risparmio di Vercelli.

The navigation bar contains links like 'Home', 'The project', 'News', 'Late antiquity on the web', 'Help', 'Contacts and feedback', 'Reserved area', and 'DH Day 2021'. There are also accessibility icons (A A A) and a flag icon.

The left sidebar contains a search box with a 'FIND' button, options for 'Searchable works', 'Advanced search', and 'Search the bibliography'. Below this is a 'Browse and download' section with radio buttons for 'Works' (selected), 'Authors', and 'Bibliography'. There are also sections for 'By date' (II, III, IV, V, VI, VII, VIII, Uncertain date, All the works) and 'By name' (A-Z, All the works). Schritt 5:

Wenn Sie den Punkt „Bibliography“ unter „Browse and download“ auswählen, können Sie analog aktuelle Forschungsliteratur zum jeweiligen Thema finden.

This screenshot shows the same digilibLT website interface, but with the 'Bibliography' option selected in the 'Browse and download' section. The main content area is titled 'Bibliography in reference to works of VII century' and includes a 'RELATED TO AUTHORS' button. The list contains 5 items:

1. AA. VV. **Bivium. Homenaje a Manuel C. Díaz y Díaz**
Bibliography in reference to Ancient works:
1. Dedicatio historiarum Gothorum, Vandalorum, Sueborum ad Sisenandum regem saec. VI-VII
2. Basset, P. M. **The use of history in the Chronicon of Isidore of Seville**
Bibliography in reference to Ancient works:
1. Chronica (Isidorus) saec. VI-VII
3. Bertini, F. **Le età del mondo romano: tra mitologia e storia**

Modern studies on late antiquity

This section hosts various types of texts:

- (a) Works on late antiquity by Italo Lana (1921-2002), by courtesy of the Lana family and of the publishing houses that issued the original editions.
- (b) Other works on late antiquity and critical editions which are out of copyright or have been made available by authors and/or publishers. In the case of very large files, users will find a hyperlink to a website that freely offers the file for download.
- (c) Conventions adopted by the project for transcription and marking of late antique texts.
- (d) Other materials prepared by the authors of the digital editions

Canon of late-antique authors

This page contains:

- the list of Late Antique authors of non-Christian prose works with the relevant reference editions, edited by Simona Musso.
- the list of late-ancient Latin legal sources, edited by Alice Borgna under the supervision of Maria Antonietta Ligios.

Both lists are not meant to be prescriptive: they merely present the choices that were made by the *digilibLT* library and are meant to serve as a tool that is open for scholars' collaboration, to supplement and modify as proves necessary or desirable in the future.

The grammarians require special note. For these authors, the *digilibLT* library used the *corpus* from the CD-ROM edited by Nino Marinone and described by Valeria Lomanto (Lomanto, V. 1990. "A Concordance to Keil's Latin Grammarians," in *Computers and Humanities* 24: 427-34). Twenty-five years later, only a few of the editions adopted in the CD-ROM have been replaced by newer editions; these are indicated in the canon. It was also decided that references to the volume and pages of Heinrich Keil's edition of the *Grammatici Latini* would always be provided in order to ensure precise identification of individual works whose titles are often generic or similar. Wherever this resulted in more than one edition being listed, the one adopted by the digital library has been printed in bold. [tr. C. L. Catherine].
